

LED ATO Blade Fuse Block

#QVFB10LED

www.qvee.com.au

DESCRIPTION

10 way LED fuse box to suit standard (ATO) blade fuses. Features a transparent cover and 6.3mm blade terminal connections. Has a single power in.

FEATURES

- Maximum voltage of 32V DC
- PBT base with polycarbonate cover
- Copper tin plated terminal connections
- 10-32 stud input terminal with hexnut & washer
- Fuses are not included

Mounting Dimensions

Unit tolerance: $\pm 1\text{mm}$
Mounting torque: 0.9Nm max

DIMENSIONS

Unit tolerance: $\pm 1\text{mm}$
Terminals size: 6.3mm ± 0.5

TECHNICAL SPECIFICATIONS

Voltage	• 32 Volt DC max
Current Rating	• 30A per circuit, 100A max per block
Materials	• PBT base with polycarbonate cover
Terminal Material	• Copper with tin plating

Output / Wire	• 6.3mm terminal / #12-16AWG wire
Input / Wire	• 10-32 stud terminal / #4-6AWG wire
Torque Rating	• 2.25Nm max
Mounting Torque	• 0.9Nm max
